

Temperature Sensor UETF-PT100-170

Technical Data

Sensor: Pt100

Thinfilm sensor,
Class B, AuNi wire, width 2mm
length 2,4mm on ceramic plate

Measurement range temp.: -50 up to +500°C

Cable: 3x connection wires AWG28, teflon insulated,
Tmax. 200°C, length 170mm with Molex-Connector
Type 50079-8000 at the end

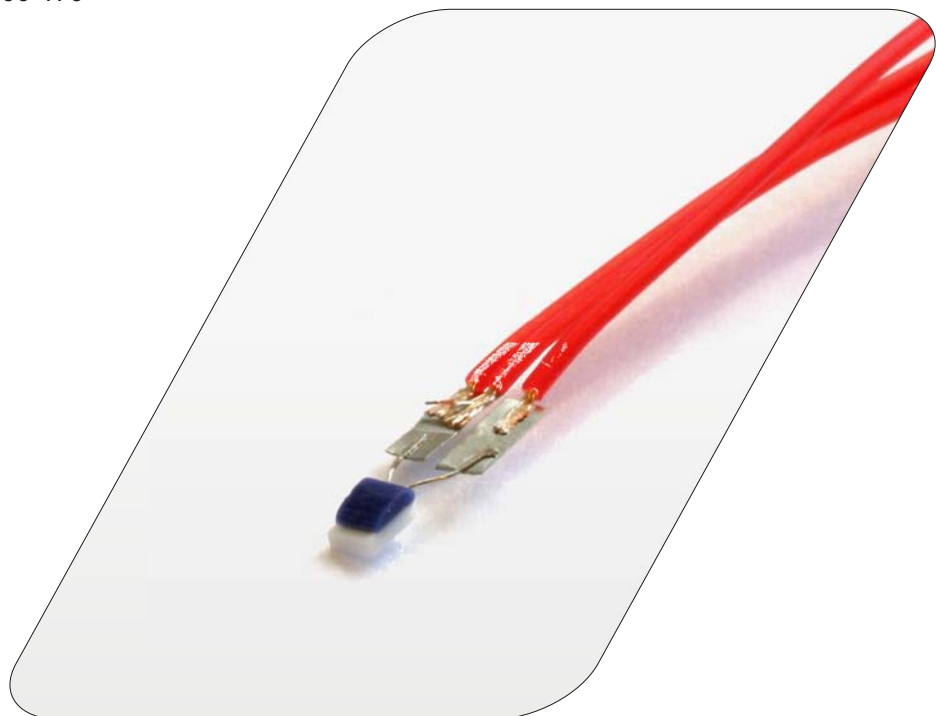

Circuit type: 3-wire connection

Conformity: RoHS

Order information

Part no.: 25235

Description: UETF-PT100-170

Specifications subject to change without notice. Dimensions in millimeters. date: 03/2012
