

Temperaturmanagement

Liquid-to-Air cooling unit 400W

Standard version	
max. power consumption (W ±10%)	430
operating power consumption (W nom. ±10%)	410
cooling capacity at dT=0°C (W nom. ±10%)	285
operating current (A max. ±10%) at 24VDC	17,2
dimensions (L x W x H, ±0,5mm)	306x245x100
weight (kg)	6,5
operating temperature range (°C min / max)	-10 / +70
electrical power per fan (W)	9,6
airflow per fan (m³/h)	143
volume per fan (dBA)	55

version / ordering	
UEPK-L2AH-24V-400W	42577

Notes:

!!! Fittings for tube diameter 9mm

Free space without insulation drops performance and rises minimum temperature on cold side.

Customized solutions are available upon request!
